

Millennium HSW-500 EU

Heatset web fountain solution

- // Designed to increase operator safety and environmental compliance
- // Fast restarts; reduces waste
- // Reduced wash intervals
- // FOGRA approved

Tower Products Europe supplies printers with high performance pressroom chemistry, aimed at increasing productivity. A complete line of innovative founts is manufactured in The Netherlands. Evidently, you will benefit from our permanent investment in research and development and our expert technical support.

By choosing the Millennium HSW-500 EU, the use of alcohol during the printing process can be reduced or eliminated. This enables printers to produce more successfully, efficiently, environmental friendly and profitably.

Millennium HSW-500 EU

Description

Millennium HSW-500 EU is a first class fountain solution for heatset web presses that contain a strong non-piling additive. The product has a strong buffering system and will work well in various types of dampening systems to provide fast, clean restarts. The product was designed to maximize the performance of printers running all types of plates, printing inks and fountain systems. Millennium HSW-500 EU complies with FOGRA requirements.

Specifications

Flashpoint	: 99° Celsius
VOC	: 6.5%
Odor	: Mild
Appearance	: Bluish Green liquid
Conductivity	: For every 1% of concentrate added, the conductivity increase will be +/- 355 µS.

Features and benefits

- Contains high technology wetting agent for reducing surface tension.
- Formulated for all plates and various dampening systems.
- Unique non-piling additive incorporated.
- Strong, unique buffering system against calcium carbonate.
- Reduced wash intervals and waste.
- Complies with FOGRA requirements.

Directions for use

- // Always clean the dampening system before changing fountain solution.
- // Read the Safety Data Sheet before use.
- // Dosing 4% of Millennium HSW-500 EU per liter of water.

Packaging

Millennium HSW-500 EU is available in 21 kg | 220 kg | 1100 kg packaging.

Certification

Millennium HSW-500 EU complies with FOGRA requirements.
